This article [*Opt. Eng.* **53**(10), 102706 (2014)] was originally published on 7 August 2014 with an error in Eq. (7), which was missing the h-bar in the numerator under the square root sign. The corrected equation appears below:

$$\delta\dot\theta = \frac{\lambda_0 L_{\mathrm{op}}}{4 S_{\mathrm{cav}}}\sqrt{\frac{\hbar\omega}{PT}}\Gamma.\qquad(7)$$

The paper was corrected online on 29 October 2014. It appears correctly in print.
