

PROCEEDINGS OF SPIE

Lidar Remote Sensing for Environmental Monitoring XIV

Upendra N. Singh

Kazuhiro Asai

Editors

14–15 October 2014

Beijing, China

Sponsored by

SPIE

Cosponsored by

State Key Laboratory of Remote Sensing Science (China) • NASA—National Aeronautics and Space Administration (United States) • Ministry of Earth Sciences (India)

Cooperating Organizations

Institute of Remote Sensing and Digital Earth (China) • JAXA—Japan Aerospace Exploration Agency (Japan) • NICT—National Institute of Information and Communications Technology (Japan) • ISRO—Indian Space Research Organization (India) • National Satellite Meteorological Center (China) • State Key Laboratory of Information Engineering in Surveying, Mapping and Remote Sensing (China) • State Key Laboratory of Resources and Environmental Information System (China) • Center For Earth System Science, Tsinghua University (China) • College of Global Change and Earth System Science, Beijing Normal University (China) • Key Laboratory of Digital Earth Science (China)

SPIE

Volume 9262

Proceedings of SPIE 0277-786X, V. 9262

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Lidar Remote Sensing for Environmental Monitoring XIV, edited by Upendra N. Singh, Kazuhiro Asai, Proc. of SPIE Vol. 9262, 926201 • © 2014 SPIE • CCC code: 0277-786X/14/\$18 • doi: 10.1117/12.2181927

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Printed in the United States of America.

Publication of record for individual papers is online in the SPIE Digital Library.

SPIDigitalLibrary.org

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID Number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages. Numbers in the index correspond to the last two digits of the six-digit CID Number.

Contents

- v *Authors*
- vii *Symposium Committees*
- ix *Conference Committee*

SESSION 1 LIDAR HARDWARE TECHNOLOGY I

- 9262 04 **Ground return signal simulation and retrieval algorithm of spaceborne integrated path DIAL for CO₂ measurements [9262-3]**
- 9262 05 **Development of Ho:YLF laser pumped by Tm: fiber laser [9262-4]**

SESSION 2 LIDAR HARDWARE TECHNOLOGY II

- 9262 08 **Diode laser based water vapor DIAL using modulated pulse technique [9262-6]**
- 9262 0A **3D flash lidar imager onboard UAV [9262-8]**

SESSION 3 ATMOSPHERIC MEASUREMENTS I

- 9262 0E **Independent measurements of PM_{2.5} and PM₁₀ in tropospheric aerosol with a multiwavelength polarization Raman lidar [9262-12]**

SESSION 4 ATMOSPHERIC MEASUREMENTS II

- 9262 0H **Characterization of turbulent wake of wind turbine by coherent Doppler lidar (Invited Paper) [9262-16]**
- 9262 0I **Research in depolarization of particles in Tibetan Plateau and coastal area by lidar [9262-17]**
- 9262 0J **Seasonal variation of aerosol vertical distributions in the middle and lower troposphere in Beijing and surrounding area during haze periods based on CALIPSO observation [9262-18]**

SESSION 5 ATMOSPHERIC MEASUREMENTS III

- 9262 0K **Characterization of aerosols in East Asia with the Asian Dust and Aerosol lidar Observation Network (AD-Net) (Invited Paper) [9262-19]**

9262 0M **Use of ceilometers for aerosol profile measurements: a comment from AD-Net** [9262-22]

SESSION 6 LASER RANGING AND LIDAR MAPPING I

9262 0N **Visualization using 3D voxelization of full lidar waveforms** [9262-23]

9262 0O **Three-dimensional reconstruction of indoor whole elements based on mobile lidar point cloud data** [9262-24]

9262 0Q **Attempt of UAV oblique images and MLS point clouds for 4D modelling of roadside pole-like objects** [9262-26]

SESSION 7 LASER RANGING AND LIDAR MAPPING II

9262 0S **Mapping the spatial pattern of temperate forest above ground biomass by integrating airborne lidar with Radarsat-2 imagery via geostatistical models** [9262-29]

9262 0T **Static terrestrial laser scanning of juvenile understory trees for field phenotyping** [9262-30]

9262 0W **Estimation of inherent optical properties from CZMIL lidar** [9262-33]

9262 0X **Particularities of hydro lidar missions in the Asia-Pacific region** [9262-34]

POSTER SESSION

9262 0Y **Aerosols and cirrus clouds over Hanoi, Vietnam: comparison between satellite products and results derived from ground-based lidar measurements** [9262-21]

9262 0Z **Derivation of tree stem structural parameters from static terrestrial laser scanning data** [9262-35]

9262 11 **Investigation of the shielding effect of tree structures measured by MLS on UV-B transmission** [9262-37]

9262 12 **Airborne lidar intensity calibration and application for land use classification** [9262-38]

9262 13 **Classification of lidar data based on region segmentation and decision tree** [9262-39]

9262 15 **A design strategy for a high-energy Tm,Ho: YLF laser transmitter** [9262-41]

9262 16 **Development of a scanning micro-pulse lidar for aerosol and cloud detection** [9262-42]

9262 18 **Observations of marine aerosol by a shipborne multiwavelength lidar over the Yellow Sea of China** [9262-44]

9262 19 **Typical geologic disaster surveying in Wenchuan 8.0 earthquake zone using high resolution ground lidar and UAV remote sensing** [9262-46]

Authors

Numbers in the index correspond to the last two digits of the six-digit citation identifier (CID) article numbering system used in Proceedings of SPIE. The first four digits reflect the volume number. Base 36 numbering is employed for the last two digits and indicates the order of articles within the volume. Numbers start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B...0Z, followed by 10-1Z, 20-2Z, etc.

Symposium Committees

Symposium Chairs

Upendra Singh, NASA Langley Research Center (United States)

Jiancheng Shi, Institute of Remote Sensing Applications and Digital Earth (China)

Honorary Symposium Chairs

George Komar, NASA Headquarters (United States)

Toru Fukuda, Japan Aerospace Exploration Agency (Japan)

Deren Li, Wuhan University (China)

Shailesh R. Nayak, Ministry of Earth Sciences (India)

Guanhua Xu, Former Minister of Science and Technology Department of China (China)

Symposium Co-chairs

Toshio Iguchi, National Institute of Information and Communications Technology (Japan)

A. S. Kiran Kumar, Space Applications Center (India)

International Organizing and Technical Program Committee

Akimasa Sumi, The University of Tokyo (Japan)

Allen M. Larar, NASA Langley Research Center (United States)

Delu Pan, The Second Institute of Oceanography, SOA (China)

Haruhisa Shimoda, Tokai University (Japan)

Huadong Guo, Institute of Remote Sensing and Digital Earth (China)

Jiancheng Shi, Institute of Remote Sensing and Digital Earth (China)

Jing Ming Chen, Nanjing University (China) and University of Toronto (Canada)

Kazuhiro Asai, Tohoku Institute of Technology (Japan)

Kohei Mizutani, National Institute of Information and Communications Technology (Japan)

Peng Gong, Tsinghua University (China)

Peng Zhang, China Meteorological Administration (China)

Robert J. Frouin, Scripps Institution of Oceanography (United States) and University of California, San Diego (United States)

Shunlin Liang, Beijing Normal University (China) and University of Maryland (United States)

Thomas J. Jackson, U. S. Department of Agriculture (United States)

Tiruvalam N. Krishnamurti, Florida State University (United States)
Toru Fukuda, Japan Aerospace Exploration Agency (Japan)
Toshiyoshi Kimura, Japan Aerospace Exploration Agency (Japan)
Upendra N. Singh, NASA Langley Research Center (United States)
Xiaoxiong Xiong, NASA Goddard Space Flight Center (United States)
Zhanqing Li, Beijing Normal University (China) and University of
Maryland, College Park (United States)
Guoqing Zhou, Guilin University of Technology (China)

Local Organizing Committee

Liangfu Chen, Institute of Remote Sensing and Digital Earth (China)
Zifeng Wang, Institute of Remote Sensing and Digital Earth (China)
Mingmei Chen, Institute of Remote Sensing and Digital Earth (China)
Dandan Li, Institute of Remote Sensing and Digital Earth (China)
Tianxing Wang, Institute of Remote Sensing and Digital Earth (China)
Xiliang Ni, Institute of Remote Sensing and Digital Earth (China)
Xiaofeng Yang, Institute of Remote Sensing and Digital Earth (China)
Ying Zhang, Institute of Remote Sensing and Digital Earth (China)
Tiantian Wang, Institute of Remote Sensing and Digital Earth (China)
Xiaoying Ouyang, Institute of Remote Sensing and Digital Earth
(China)
Le Yang, Institute of Remote Sensing and Digital Earth (China)
Man Peng, Institute of Remote Sensing and Digital Earth (China)

Conference Committee

Conference Chairs

Upendra N. Singh, NASA Langley Research Center (United States)
Kazuhiro Asai, Tohoku Institute of Technology (Japan)

Conference Program Committee

Makoto Abo, Tokyo Metropolitan University (Japan)
Weibiao Chen, Shanghai Institute of Optics and Fine Mechanics (China)
Takashi Fujii, Central Research Institute of Electric Power Industry (Japan)
Yongxiang Hu, NASA Langley Research Center (United States)
Dengxin Hua, Xi'an University of Technology (China)
Shoken Ishii, National Institute of Information and Communications Technology (Japan)
Dong Liu, Anhui Institute of Optics and Fine Mechanics (China)
Philippe L. Keckhut, Université de Versailles Saint-Quentin-en Yvelines (France)
Thomas J. McGee, NASA Goddard Space Flight Center (United States)
Kohei Mizutani, National Institute of Information and Communications Technology (Japan)
Tomohiro Nagai, Meteorological Research Institute (Japan)
Masakatsu Nakajima, Japan Aerospace Exploration Agency (Japan)
Takashi Shibata, Nagoya University (Japan)
Tatsuo Shiina, Chiba University (Japan)
Venkataraman Sivakumar, Council for Scientific and Industrial Research (South Africa)
Nobuo Sugimoto, National Institute for Environmental Studies (Japan)
Songhua Wu, Ocean University of China (China)
Fan Yi, Wuhan University (China)
Jirong Yu, NASA Langley Research Center (United States)

Session Chairs

- 1 Lidar Hardware Technology I
Upendra N. Singh, NASA Langley Research Center (United States)
George J. Komar, NASA Headquarters (United States)
- 2 Lidar Hardware Technology II
Upendra N. Singh, NASA Langley Research Center (United States)
George J. Komar, NASA Headquarters (United States)

- 3 Atmospheric Measurements I
Jirong Yu, NASA Langley Research Center (United States)
Parminder Ghuman, NASA Goddard Space Flight Center (United States)
- 4 Atmospheric Measurements II
Jirong Yu, NASA Langley Research Center (United States)
Kazuhiro Asai, Tohoku Institute of Technology (Japan)
- 5 Atmospheric Measurements III
Nobuo Sugimoto, National Institute for Environmental Studies (Japan)
Songhua Wu, Ocean University of China (China)
- 6 Laser Ranging and Lidar Mapping I
Kohei Mizutani, National Institute of Information and Communications Technology (Japan)
Atsushi Sato, Tohoku Institute of Technology (Japan)
- 7 Laser Ranging and Lidar Mapping II
Xiaomei Lu, NASA Langley Research Center (United States)
Kohei Mizutani, National Institute of Information and Communications Technology (Japan)
